

# HOPE FOR LIBERIA

**“Fellow Citizens!  
Our prosperity and  
independence are to be  
drawn from the soil. That  
is the highway to honor,  
to private and national  
prosperity.”**

—Hilary Teage—  
Anniversary Speech  
Monrovia, Liberia  
December 1, 1846

Hi Friends,

This sentiment still rings true today. In fact, it’s more important than ever. The pandemic taught us that **Liberia could not rely on other countries for food**, especially something like rice, which is a major staple. That’s why more than a year ago we took a huge **step of faith** and decided to launch **“Hope Farm”** in Bong County. **Sustainability** is always at the forefront of every decision we make and every project we embark on.

In 2022, many of you joined us in support as we sought to purchase land that would be used for farming. I am delighted to report that we are **starting to reap** the fruits of your generosity. The **cucumber** harvest has been wonderful so far. The **corn** is growing. The **eggplants**

are being used daily to cook healthy meals. The **cassava** field (pictured left) is bursting with growth. So many people will benefit from this “staple” root vegetable. The first **rice** harvest is set for November (land clearing pictured second image at left).

There is so much excitement in the area. Not only is the farm **producing food** for the residents, it’s also **producing dozens of jobs** for nearby villagers.

So far, 2023 has been an amazing year for Hope For Liberia. Thanks to your ongoing support, many of our projects continue to make a big difference in the lives of so many people in Liberia and **bring HOPE** to them. Please see the back of this newsletter to see how you have helped us do the **MOST** for the **LEAST**.

Warm regards,

*Joe & Karen*

# THANK YOU!

Here is how your donations have helped in the last two months . . .

Mattresses for Orphans

Medical Treatment for Tuberculosis

Seed & Supplies for Hope Farm

Students' Graduation 

## COMPLETING THE ROOF ON THE HOUSE OF HOPE ORPHANAGE

While Joe was in Liberia in June, he got this drone shot of the roof being built. It is even further along now and thankfully it's getting done before the heavy rains arrive. The next projects will be the insides of the building—**paint, tile, plumbing, electrical.**

Many of you may remember one of the very first children we helped named Mitchell. He is deaf and non-verbal and when we brought him to the school, he began to **thrive in his education.** Pictured at the left is the first photo we have of him in the spring of 2019. We are excited to let you know that **he just graduated with all his classmates!**

### WAYS TO GIVE

**MAIL:**  
Cheque to

**E-TRANSFER:**
